Intergenerational Learning: Warm up Activity Resource

Warm up Activity?

AIM:

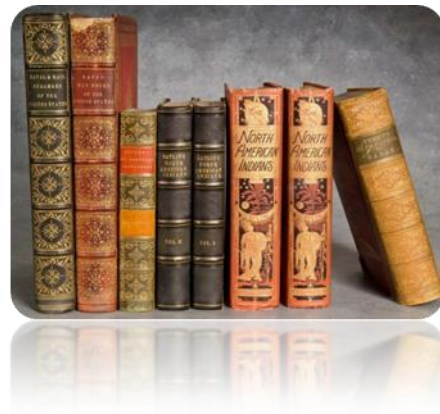

This activity is will generate conversations between the intergenerational groups. The discussion should allow for older and younger participants to contribute and promote the intergenerational partnership working.

You can support group engagement and familiarise the group with the names of the individuals by encouraging the group to write down the name of the person who answers the questions each time.

1. Who has a book they read more than once?

2. Book Verses Kindle – you decide?

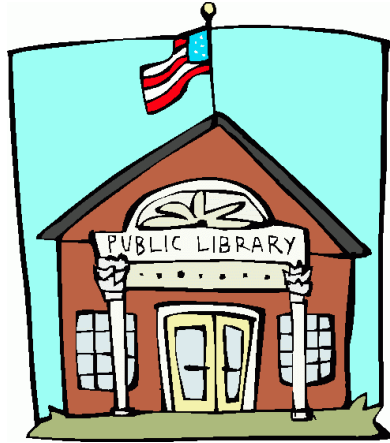

3. Who thinks they can print something using potatoes?

4. Pens verses keyboards

5. Who thinks libraries are a thing of the past?

6. As a group name as many types of paper as you can (you needn't write down names for this one)
